

## Mask Policy

Consistent with the State of Connecticut's Office of Early Childhood (OEC) and the Centers for Disease Control and Prevention's (CDC) current recommendations, the Boys & Girls Clubs of Milford are modifying our COVID-19 policies and procedures by moving to a mask optional policy for staff and members during all Boys & Girls Club after school and summer programming, effective February 28, 2022.

While we are presently able to reduce some of the precautions developed in response to COVID-19, it remains very important for staff and members to continue following these guidelines:

- Engage in daily health screening and self-monitoring of symptoms.
- Continue to practice good hygiene by frequently washing your hands
- Follow isolation guidelines for anyone who has symptoms associated with, or has tested positive for, COVID-19.
- Continue to report identified cases to the Health Department as well as the Boys & Girls Club
- Continue to follow transmission prevention strategies, including testing and masking following illness or exposures to COVID-19 cases.
- Continue to follow existing quarantine guidance for anyone who has been notified of certain higher-risk close contact exposures (e.g., household exposures, crowded social gatherings).

We are all hopeful for the future and that the trends will follow the current trajectory. We will, however, continue to monitor the health metrics in our community and will adjust our policies accordingly.
